The Best Way To Grow On Earth™

Soil Moist™

Add Nitrogreen and Water Aide to your product line, and watch profits grow.

Nitrogreen 13-0-0 is a 100% plant-based organic fertilizer for use on all plants and vegetables.

OMRI approved, it is derived from hydrolyzed non-GMO plant protein. The all-purpose fertilizer is 100% water soluble and goes into solution quickly to ensure immediate delivery of its nutrients. Nitrogreen has the highest nitrogen available in the organic industry which is essential for plant growth and establishment. A plant-based fertilizer, Nitrogreen will not burn plants.

Benefits:

- 100% water soluble fertilizer
- Goes completely into solution for immediate nutrient delivery
- Plant-based fertilizer, will not burn plants
- Highest nitrogen available in the organic industry
- OMRI approved

Nitrogreen is packaged in attractive 14-ounce bags with a shelf display, two-pound tubs and bulk sizes.

Water Aide is a hybrid wetting agent that improves water efficiency on soils for all types of plants, vegetables and lawns.

Water Aide is a combination wetting agent, soil penetrant and drift retardant. It increases water penetration in the soil with less runoff and disperses the water throughout the soil media. This enhances fertilizer and nutrient uptake with less waste. A gel compound, Water Aide traps water in the soil and helps reduce plant waterings.

Benefits:

- Increases water efficiency
- Reduces plant waterings
- Increases water penetration in the soil, reduces water runoff
- Spreads water evenly through the soil
- For all plants, vegetables and lawns

Water Aide is packaged in attractive 3-ounce bags with a shelf display and in bulk sizes for commercial use. Each package will treat 60 gallons of water for plants, vegetables and lawns.

* Water Aide is OMRI listed for commercial use.
