

The Best Way To Grow On Earth™

Soil Moist™

NEW!

E-Z ROOT™

Rooting Compound

Increase Your Organic Sales with E-Z Root™ Compound

E-Z Root™ is microbial based rooting compound to help grow new plants from cuttings. The natural occurring bacteria improves soil conditions for root growth. E-Z Root™ works on rooted and unrooted cuttings. It can be used as a dip, a drench in soils or as an additive in hydroponic systems.

The three strain microbial species with an organic based fertilizer is ideal for all plants, flowers, vegetables and trees.

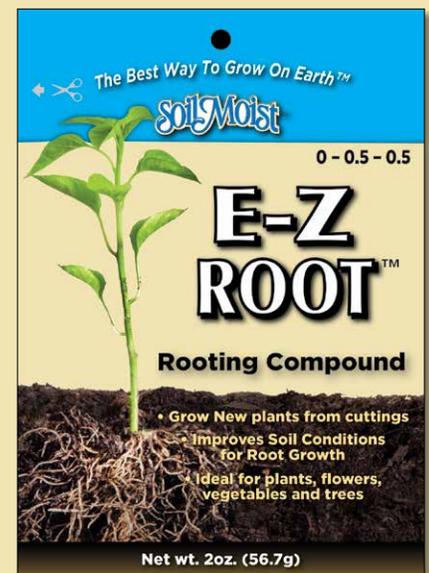

E-Z Root™ is packaged in attractive two-ounce and eight-ounce resealable bags. Detailed instructions on the back of the package helps the customers for successful plantings. Included in each package is a measuring scoop.

BENEFITS:

- ✓ Improves Soil Conditions for Root Growth
- ✓ Naturally Occurring Bacteria with an Organic Based Fertilizer
- ✓ Increases Root and Plant Growth
- ✓ For Rooted and Unrooted Cuttings
- ✓ For All Plants, Flowers, Vegetables and Trees
